

# **Water in the West**

## **Spring Hydrology Seminar 2008**

**Wednesday 4 PM ALS 4000**

**WRS 507, CRN 37771; WRS 505 CRN 37797**

- Apr 9 Shannon Peterson, Klamath Basin Trust,  
Finding balance in the upper Klamath Basin**
- Apr 16 Christina Tague, UC Santa Barbara  
Modeling climate change and hydrology**
- Apr 23 Adell Amos, University of Oregon, Oregon  
water law, climate change and energy**
- Apr 30 Roger Bales, UC-Merced, Sierra Nevada  
snowcover patterns, watershed processes**
- May 7 Tamra Mabbott, Umatilla County Planning,  
Water and land use planning in Oregon**
- May 14 Todd Dawson, UC-Berkeley, Water, plants,  
and California's drought prone ecosystems**
- May 21 Brad Udall, NOAA, The Colorado River at  
1900, 2000, and 2100**
- May 28 John Warwick, Desert Research Institute,  
Modeling of the Lower Truckee River, NV**
- Jun 4 J. Frentress, J. Zarnetske, Science, policy,  
and water in the West: an impromptu  
graduate student discussion**
