January 17 – River of Renewal – Jack Kohler – 55 min – the story of conflict over the resources of California and Oregon’s Klamath Basin. Over the years, different dominant groups have extracted its minerals, trees, and water with disastrous consequences. Sponsor: Institute for Natural Resources – La Raza Room 208

January 24 – Red Gold – Travis Rummel – 55 min – The Kvichak and The Nushagak Rivers are the two largest remaining sockeye salmon runs on the planet. Mining companies have proposed to extract the richest possible deposit of gold and copper in the world. Sponsor: Institute for Water and Watersheds – La Raza Room 208

January 31 – Bull Run – Eric Cain – 30 min – The Bull Run watershed has one of the prettiest big dams in Oregon. But to protect the water from contamination, the entire area has long been closed to public access. Sponsor: Oregon Climate Change Research Institute – La Raza Room 208

February 7 – Water Voices – 60 min – La Raza Room 208

February 14 – Gaslands, part 1 – Josh Fox – 60 min – A recently drilled nearby Pennsylvania town reports that residents are able to light their drinking water on fire. This is just one of the many astonishing revelations of a new country called GASLAND. Sponsor: Institute for Water and Watersheds – La Raza Room 208

February 28 – Water Life, part 1 – 60 min – Water’s journey from streams entering Lake Superior to the mouth of the Saint Lawrence Seaway takes 350 years. The narration establishes the importance of the Great Lakes for the U.S. and Canada’s fresh water. Sponsor: Oregon Climate Change Research Institute – La Raza Room 208

March 6 – Water Life, part 2 – 60 min – Sponsor: Oregon Climate Change Research Institute – La Raza Room 208

March 13 – Student Film Night – 60 min – Sponsor: Institute for Natural Resources – La Raza Room 208
